

UT BROWNSVILLE (747)
Fiscal Year: 2008
90 Day Past Due Statement (up to 7,000 characters)

Past Due Collection Summary

Ongoing efforts are diligently performed to collect past due balances from all students, whether they have a delinquent payment plan in effect or simply have a residual balance due to the University for registration activities occurring during and after the first class day. The collection efforts include semi-monthly telephone calls, electronic & paper invoicing and email notifications encouraging communication and payment of all outstanding balances. It is the University's policy to place a "Hold" on the student's account so that future registration or financial transactions initiated by the student will be blocked and they will be required to contact the Business Office to work out payment arrangements before this "Hold" can be lifted.

Although many students have unique financial problems, the following are some general options we provide to the student when they visit the Business Office to make payment arrangements for their outstanding balances:

1. Monthly payment schedules are set up according to the financial obligation the student's budget can support, but the goal is to payoff the balance before the end of the current semester;
2. Late payment fees are negotiated and forgiven if the debt is various years old and the fees constitute a large amount of the debt; and
3. The student is encouraged to apply for Financial Aid as a form of future resources.

In addition to these arrangements, the Business Office has created a new Student Financial Services area within the department. This area will design and implement a new financial counseling program for students and their parents in the areas of alternative financing and debt management. We believe that this new counseling service will greatly aid in the collection of outstanding, delinquent accounts.

Please put any additional comments here (up to 100,000 characters)

Fiscal Year: 2008 Agency : UT BROWNSVILLE (747)

This report shows all reported data from the agency sorted by Object Code
