EMERGENCY PHONES

In case of an emergency, emergency phone are available throughout campus.

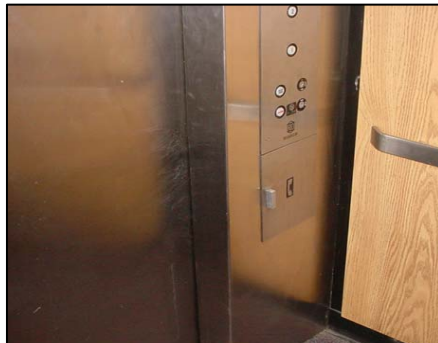

Types of phones on campus

There are at least three types of emergency phones on campus.

1. Island phones – Found in lawns and corridors.
2. Yellow box – Found inside buildings
3. Elevator Phones – There are several versions of elevator phones throughout campus. They all operate the same way. Old ones might require opening their door compartment in order to make a call.

Island Phones

Elevator emergency phone with compartment.

Yellow Box

How Emergency Phones work

- ▶ Press the call button once.
- ▶ The phone dials Campus Police (you should hear it dialing).
- ▶ The call is received by dispatch through a dedicated line that all emergency phones are connected to.
- ▶ The dispatcher verifies the location by the phone extension used and sends an officer to that location.
- ▶ The dispatcher answers the call and relays the information to the officers as they respond.

If you know of an emergency phone that is not functioning, please report it to Campus Police at 882-2222.
